

Top 10 Reasons To Choose DMS

- DMS has **over forty years of combined experience in the Telecommunications industry** including staff with experience in technical and support roles for the AT&T family of companies.
- DMS is a **5 Star Solution Provider** for AT&T. That means **DMS** exceeds the strict operational standards that are set for Solution Providers in areas such as training and customer service.
- DMS has earned the business from our clients by not only **finding/negotiating the best price and terms** but also by **taking the hassle out of dealing with the ordering and delivery** coordination from the phone company.
- DMS currently has customers that spread across a **huge range of industries** – banking, manufacturing, hospitals & healthcare facilities, retail, technical services, distribution, logistics, professional services, the list goes on and on...
- **Businesses order Voice and Data solutions every day directly AT&T.** This is time consuming and frustrating in nearly every case. Why not focus on your core business and let your AT&T partner (DMS) make your life simpler and save you money?
- **Working with DMS is simple.** You tell us what your business goal is. We provide technical analysis, pricing, Q &A, order processing, implementation coordination and billing support from start to finish and beyond!
- **We track your services** – as your full service AT&T sales and support team DMS will make sure that you are taken care of. We will keep track of the services that you have with AT&T and remind you when your contract is coming up for renewal. This will give us an opportunity to review your business needs and make sure that the contract expiration is handled before you receive a surprise on your monthly bill.
- **Technology is ever changing – DMS is there.** We are thoroughly trained on any and every new technology that enters the telecommunications world and can bring that information to you. This eliminates the need for your staff to spend their valuable time researching and comparing services as they become available or your business needs change.
- **If you are moving** your location you will have enough to worry about. Place a call to DMS, discuss your current services as well as needs for your new site and we can handle the whole project. **We will coordinate** with your dates and vendors to make the transition of your services painless.
- **Your business is unique** – work with a company that cares. Let us learn your business and become your single point of contact for all of your voice and data needs!
